**FOR IMMEDIATE RELEASE – Local Engineering Firm Ranks High Among Best Places to Work**

For the second consecutive year, CE News magazine ranked Traffic Planning and Design, Inc. (TPD) as one of the 50 Best Civil Engineering Firms To Work For in the United States, ranking the firm at Number 41.

Along with this honor, TPD was ranked Number 7 on the list of Best Places to Work in PA. This list, unlike the CE News magazine list, includes all types of businesses, not only civil engineering firms.

In both contests, judges commended the firm's flexibility, strong family-friendly atmosphere, and recognition of staff achievements, relaxed but professional environment, and commitment to continuous improvement of policies and procedures, and good employee benefit structure.

Not only is this recognition an honor, but it also reaffirms TPD's efforts to enable employees to effectively balance professional endeavors with family commitments, resulting in the firm's ability to attract and maintain a highly skilled staff. TPD's extremely low voluntary turn-over rate enables the firm to provide a high level of quality and efficiency to its clients.
