FOR IMMEDIATE RELEASE – Transportation Engineering Firm Names Four New Associates

Traffic Planning and Design, Inc. (TPD), is proud to announce the promotion to Associate of the following individuals:

Vince DeFlavia, P.E., PTOE serves as Project Manager for Roadway and Traffic Signal Design projects. He is responsible for the preparation, review, and revision of preliminary and final roadway and traffic signals design plans.

Chad Dixon, AICP is a Project Manager for Regional Planning and Municipal Services projects for state, county, and municipal clients.

Greg Lebo, P.E. serves as Vice President and focuses on large-scale, public-sector design and planning projects.

John Wichner, P.E. is a Project Manager for TPD's Transportation Planning Team, focusing on the preparation, review and revision of traffic impact studies.

Each of these individuals has consistently demonstrated a commitment to the continuous quality improvement and growth of the organization through the development of long-term customer relationships and able leadership of TPD's top-notch staff of technical and administrative professionals. Formalization of the firm's leadership base will result in exceptional service to our customers and expanded professional development opportunities for our staff.

Traffic Planning and Design, Inc., specializes exclusively in transportation engineering and related services for municipal, state (DOT), and private clients throughout PA, NJ, DE, MD, and VA.
